## The Economy in 2009

- AUMA is prepared to strongly support the Government of Alberta as it responds to an economic downturn.
- Costs of construction are now decreasing, and investment in public infrastructure should now rise.
- We believe that both orders of government can partner in the good times , as well as the bad times, through a new, more mature relationship.

## The Throne Speech

- Municipalities appreciate the focus on future to maintain confidence in Alberta
- We are ready with programs to leverage public infrastructure investments
- It is imperative that the integration of ambulance and emergency medical services be an immediate priority

## 2009 Provincial Budget Submission

- AUMA's Core Recommendation:  
using the *Framework for a Provincial-Municipal Sustainability Partnership Agreement*, discuss with Alberta municipalities a new permanent relationship with objective-based, annual transfers.

**AHEAD. TOGETHER.**

- Streamlines and simplifies complex government programs and processes
- Builds-in accountability measures to ensure key objectives are being met

**AHEAD. TOGETHER.**

  - *Improves reporting of results for dollars invested in municipalities*
